

## COGNICA BSI Certified for BIM Level 2 Delivery

COGNICA has achieved Verification Certification to PAS 1192-2:2013 covering information management for the capital/delivery phase of construction projects using building information modelling. COGNICA is a Tier 2 contractor providing Task Information Management and data compilation services, including collection, collation and delivery of information. COGNICA operates under Tier 1 instructions for projects complying with BIM Level 2 in accordance with PAS 1192-2:2013, BS 1192:2007 and BS 1192-4:2014.

David Gillies, Business Development Manager and BIM Champion said: “We are extremely pleased to have achieved this Certification. With over 15 years’ experience of working with the majority of the UK’s Tier 1 Contractors, we have been able to perfect our systems and processes to ensure the efficient management and delivery of hand-over information for our customers.

COGNICA sees BIM Level 2 as a route to supplying the End Client with better information, therefore aiding the management of their assets throughout the life cycle of the Building”

If you are working on a project where BIM has been specified, or you would like more information on COGNICA’S document delivery services and experience, please contact us.
